PEOPLE TRIAL

REJOICE

With Palma Over Success of Republic and Pay Him Tribute

Everywhere Throughout Eastern Cuba President was Greeted With Enthusiasm Which is Stronger Where Opposition Administration Existed

President Palma, after he started yesterday from Havana on his tour of eastern Cuba, passed long stretches of time in the city of Pinar del Rio, where he received addresses from the officials and party leaders, and was presented with bouquets of flowers. The enthusiasm when the president entered the region in which opposition to the administration was reputed to be the strongest, increased.

On President Palma's arrival at Pinar del Rio, the entire vicinity was filled with a cheering mass of all colors.

NEVER WAS BITTEN BUT HAD THE RABIES.

New York, Sept. 15.—After suffering for a week all the tortures of hydrophobia, a man who had been bitten by a dog, died yesterday. He had never been bitten by a dog, but had the rabies.

POLICE RESERVES

Called to Quell Riot Among Tammanyites on Eve of Election.

One Man May Die and Several Others Are Seriously Injured as Result of the Contest for Supremacy in New York District.

New York Sept. 15.—One man may die and several others are seriously injured as a result of the most serious riot this city has experienced in many years on the eve of a primary contest. The riot occurred at Fifth avenue and 114th street. Many shots were fired and only when a large force of police reserves was rushed to the scene, was peace restored.

For more than an hour the street was filled with a howling crowd of partisans of Isaac A. Hopper and Daniel J. O'Connell rival candidates for the Tammany leadership in the thirty-first assembly district. Sticks and stones filled the air, while the cries of the contestants could be heard for blocks.

Robert Crombie, formerly a county detective on the staff of District Attorney Jerome, is in the Harlem hospital with a fractured skull, one arm broken, and it is feared internal injuries which he suffered when a mob kicked him into unconsciousness. He is not likely to recover. Geo. Loomback, a policeman, was bruised about the head and body, and beaten almost into insensibility. Half a dozen others were hurt and one man was shot in the leg, but the police did not get his name.

Between the followers of Hopper and O'Connell the rivalry has been of the bitterest and by midnight, it had reached a stage where a fight was imminent on the slightest provocation.

Upon the vote of the neighborhood where the riot took place depends the

result of today's primaries. A party of Hopper workers had been canvassing the districts, and when they emerged from a saloon at Fifth avenue and 114th street, they discovered an O'Connell banner across the way. Forming a pyramid, they reached the banner and trampled it in the street. The crowd quickly swelled to thousands, and the raiders started to find more banners. They came upon an O'Connell campaign wagon nearby, and after destroying its decorations, began to demolish the vehicle.

Policeman Leonard, hearing the noise, ran up and plunging into the crowd arrested two men.

"Down with the copper!" "Kill the cop," cried the mob, and as he started to drag his prisoners they set upon him and drove him back, inch by inch, until he had to release one prisoner. The policeman was gradually forcing his way to a doorway of a drug store, but was in sore trouble when Crombie and Wm. Rath ran to his assistance and he was able to find shelter. Revolvers had been drawn and many shots fired early in the fight and when the crowd found Crombie interfering to save the officer, they dragged him into the street, beating and kicking him until he fell unconscious. The fight was becoming general between the rival factions, when thirty policemen dashed into the mob and clubbing right and left, put an end to the trouble. The crowd dispersed so quickly, that few arrests were made.

THE FAMILY REFUSES TO GIVE DETAILS OF A DAUGHTER'S DEATH BUT HINTS THAT SHE SUICIDED.

Chicago, Sept. 15.—A despatch to the "Chronicle" from Wheeling, W. Va., says that the body of Miss Ella Zane, 23 years old, and a member of the family that founded this city, has been found in the Ohio river. Coroner G. Fitzpatrick says the young woman was murdered and thrown into the river. The family refuses to give details, but hints at suicide. Three years ago, Miss Zane retired from active society life, and became a recluse. She was missed from her home Sunday.

When troubled with constipation try Chamberlain's Stomach and Liver Tablets. They are easy to take and produce no gripping or other unpleasant effect. For sale by all druggists.

More Riots.

Disturbances of strikers are not nearly as grave as an individual disorder of the system. Overwork, loss of sleep, nervous tension will be followed by utter collapse, unless a reliable remedy is immediately employed. There's nothing so efficient to cure disorders of the Liver or Kidneys as Electric Bitters. It's a wonderful tonic, and effective nerve and the greatest all around medicine for run down systems. It dispels Nervousness, Rheumatism and Neuralgia and expels Malaria germs. Only 50c, and satisfaction guaranteed by H. F. Vortkamp, druggist.

HEAVY SNOW STORM RAGING IN NORTHWEST.

Cheyenne, Wyo., Sept. 15.—A heavy snow storm has been in progress here since Sunday, and shows no indication of abatement. A great deal of snow has fallen, but it melts almost as soon as it strikes the ground. From Laramie come reports of a fall of 18 inches of snow during the past 24 hours. Telephone and electric light wires were broken by the weight of the snow, and last night, the city was in darkness.

MONEY FROM HOME.

Manila, Sept. 15.—A letter addressed to Artemio Arce, the former insurgent general, now residing in Hong Kong, having been deported there in 1927 with other rebel chiefs, has just fallen into the hands of the local constabulary. It says that money will be sent him by many prominent friends in this city.

RIISING BREAST

And many other painful and serious ailments from which most mothers suffer, can be avoided by the use of "Mother's Friend." This great remedy is a God-send to women, carrying them through their most critical ordeal with safety and no pain. No woman who uses "Mother's Friend" need fear the suffering and danger incident to birth; for it robs the ordeal of its horror and insures safety to life of mother and child, and leaves her in a condition more favorable to speedy recovery. The child is also healthy, strong and good natured. Our book "Motherhood," is worth its weight in gold to every woman, and will be sent free in plain envelope by addressing application to **Broadfield Roulston Co. Atlanta, Ga.**

THE STAGE.

When you were a boy and you ever drive a horse round and round while they ran the machine on threshing day on the farm. "That used to be the ambition of my life" said an old gentleman not long since. "I used to feel when I was walking around after those horses that I was one of the 'thrashers' and just as important as any of them on that busiest day of the whole year when the grain was thrashed."

The old horse-power threshing machine is now a thing of the past. But one can see a very faithful reproduction of the affair, running and threshing out the wheat in "The Village Postmaster." So realistic is the scene that you feel as though you were right there among the waving trees, and the sweet smells of flowers, fruit and grain of the blessed country.

"The Village Postmaster" has a great record to its credit; 227 nights in New York, 125 nights in Chicago and 100 in Boston, and will be the attraction at the Faurot opera house, next Friday, Sept. 18. The cast this year including new vaudeville acts, is the same that will go to England with this play next fall for a long tour.

In the duel scene, the climax of the third act of "Richard Carvel" in which he plays the name part, Andrew Robson is said to give an exhibition of fencing that is rarely seen outside of the regular matinee d'armes. He is a very expert fencer, having worked with some of the best matines d'armes in this country and in Europe. Mr. Robson is said to have an elaborate scenic production of this successful play and to have costumed it very handsomely. Mr. Robson, who will be seen at Faurot opera house, next Saturday, matinee and night, is reported to be supported by an excellent company including Lucille Veronika, Priscilla Knowles, Virginia Milton, Josephine Adams, Adelaide Hagar, Marguerite Gallagher, Harry Connor, John W. Bennett, J. K. Newman, Carson Davenport, J. J. Sambrook, Thomas Haddock, Burton Downing, H. B. Carter, Arthur Bentley, Hale Norcross, Wm. Wallace, Geo. Sanderson and Spencer Eaves.

Sour Stomach.

When the quantity of food taken is too large or the quality too rich, sour stomach is likely to follow, and especially so if the digestion has been weakened by constipation. Eat slowly and not too freely of easily digested food. Masticate the food thoroughly. Let five hours elapse between meals, and when you feel a fullness and weight in the region of the stomach after eating, take Chamberlain's Stomach and Liver Tablets and the sour stomach may be avoided. For sale by all druggists.

FINE WORK.

The students of the shorthand department of the Lima Business College will have an exhibit of their work at the fair. If you want to see perfect work, it will pay you to visit this exhibit. It will give you an idea of the work in all departments of Lima Business college.

Served on Him by Beavers to Produce Records in Court.

Washington, Sept. 15.—Geo. Beavers, the former chief of the division of salaries and allowances, postoffice department, has retained a local law firm as counsel. At the instance of the latter, a subpoena was served on the postmaster general yesterday, directing the production of the records in the salary and allowance division, in connection with the supply of the Dent-Brandt cashiers, at the hearing of Beavers, to be held in New York, Sept. 15, under the Brooklyn indictment.

ANGRY AT CASEATT.

There is much wrath in Pittsburgh at the action of President A. J. Caseatt, of the Pennsylvania in refusing to allow other lines to use his proposed elevated freight line through the business part of the city. A delegation was sent to President Caseatt relative to the matter, but the best the delegation got was a promise that other roads might have switching privileges, which the Pittsburghers think is about as good as nothing at all. Many of the shippers are aroused over the affair and are declaring they will take steps to fight the proposed

EIGHT

Engines Ordered for Early Delivery

By C. H. & D.

Penna. Surgeons to Meet in Ft. Wayne.

Use of Camera in Construction Work Being Tried by the B. & O.

Making Ties Out of Leather Is an Industry Just Started—Promoters Claim Advantages for Them Over Wood.

The Cincinnati, Hamilton and Dayton has ordered eight engines to be delivered next December. Three of the engines are to be for passenger service, and will be larger than any the company now owns. The company has also placed an order for 4,000 tons of seventy pound steel rails.

The first of the order for 10 shifting engines for the Pennsylvania lines west of Pittsburgh, has been delivered. The other nine will be delivered at the rate of three a week. Six of these engines will be assigned to the northwest system and four to the southwest system.

On Wednesday, the Lake Shore Co., received the first consignment of new equipment for which orders were placed last month.

The orders placed call for 15 passenger locomotives, 15 freight locomotives, 5 pushers and 5 switch engines, 15 passenger coaches and 600 box cars. The engines are being built at the Brooks Locomotive Works, and will cost \$18,900 each. The box cars, it is said, will cost \$800 each. These prices seem pretty steep.

Ten Per Cent Granted.

The telephone operators employed by the Nickel Plate between Buffalo and Chicago, have been granted an increase in wages amounting practically to 10 per cent by superintendent Johnson. Under the new scale the operators will get from \$48 to \$70 a month, instead of from \$45 to \$65.

Surgeons Meeting.

Active preparations are being made for the annual meeting of the Pennsylvania railroad surgeons in Ft. Wayne, Sept. 17. It is stated that at least 200 surgeons who care for the injured, will be there to discuss methods and compare notes. A number of general officers will be present and make addresses. Surgeons from New Jersey, New York, Pennsylvania, West Virginia, Maryland, Ohio and Indiana, have signified their intention of being present.

The Camera.

The officials of the Baltimore and Ohio railroad company are considering the creation of an entirely new department in connection with railroad work. It will be known as the photographic department and is designed especially to add the work of the engineering and maintenance of way forces. In the camera, the officials believe they have found a means of remedying many of the intricacies that now exist in connection with engineering work, and will, to some extent, do away with profiles and other drawings that lack the correctness of a photographic view. The new department will be particularly valuable in aiding the work of the construction engineers and giving the officials a clear insight to situations existing along the line which have heretofore been explained by letter communications.

Car Stringency.

Despite the fact that freight traffic officials say there is no danger of a shortage in cars, there is a prospect the roads will suffer a greater shortage than at first expected. Eastern and western roads are suffering alike hence there is little opportunity to borrow in order to tide over the difficulty. Messages have been sent to the various headquarters announcing that crops cannot be moved unless additional equipment is provided.

Cars and Tonnage Assured.

Backed by the Pennsylvania, the B. & O. and the Pittsburgh & Lake Erie, a powerful corporation is forming in the east for the purpose of controlling, though not owning, the lands operated by the Pittsburgh Coal Co., in Pennsylvania. The company is to supply \$32,000,000 to the Pittsburgh company to wipe out its floating debt and place it on a strong financial basis. The coal company is assured a sufficient number of cars to haul its coal and in turn the railroads are assured a certain maximum tonnage to haul.

Leather Railway Ties.

Making railway ties out of leather is an industry just inaugurated at West Warren, Mass., by the F. W. Dunnell Composite Leather Co. The inventor of the ties has been experimenting in this line for some time and leather ties which have been in service twenty six months in the yards of the Boston & Albany road, shows no signs of wear, although the strain on them has been constant and severe. Wooden ties, the inventor says, deteriorate principally because the fish plates cut into them and make indentures in which water seeps and rots the wood. In the tests with the leather ties, the fish plates have not materially affected the ties. Only worthless leather, such as old shoes, scrap leather from shoe and harness shops and old leather of other descriptions is employed in the manufacture of ties. It is ground by special machinery into a fine mass and is compressed into the desired shape under hydraulic pressure.

The Pennsylvania color test car is at work on the western division.

STARTING OUT RATHER YOUNG

To Make a Record That Will Not Count for Much Hereafter.

Marion, O., Sept. 15.—Ernest Dickson, aged 19, of Mansfield and Chas. Mickley, aged 19, of Crestline, are under arrest here, charged with house breaking. After perpetrating a series of robberies and terrifying the town of Green Camp, Saturday, it is alleged the two broke in a car occupied by railroad section men, and secured a watch, a ring, a dozen razors and three revolvers. They then entered the home of a citizen securing some money and jewelry.

While inside the Cummins home, the house was surrounded by 200 people. The lads pulled two guns each, and awed the villagers. Going to a store, they held up the proprietor for a supply of cartridges. The lads bought tickets for Urbana, and held the villagers at bay until the train pulled out. Richmond was wired, and as the train stopped, a Green Camp farmer who had slipped aboard, took a seat behind the lads. He covered them with two big guns and the Richmond officers placed them under arrest.

Why He Was Caught

(Original.)

When Colorado Jack was in prison awaiting execution for his various misdeeds, being desirous of interviewing a veritable desperado, got permission of his keeper to visit him. Among other things he told me how he came to be caught at last. This is the story: I'd had things pretty much my own way for a long while, and it made me careless. It's never best for a man to have a run of good luck. He needs a backset now and then to keep him cautious. While I was boidin' people up and gittin' away with the plunder I forgot that those I'd levied on was stirrin' up trouble for me.

One day I rode by a ranch and seen it was a prosperous lookin' place. I thought I'd stop and see if I could haul anything. The door was opened by a trim gal as you ever see. Not a glances at me or greaser or anything like that, but a lady all over. I told her I was a traveler and would like to get a dinner if I might be allowed to pay for it, and she said I could have all I wanted to eat with nothin' to pay and welcome. I heard an old crone's voice speakin' from above.

"What you thinkin' of, Lillian? Of course he can pay for dinner. D'you suppose we're made of money?"

The gal colored, but said nothin' and went out and gave orders to the cook, while I, bein' convinced that the place was open to me, went upstairs, and, scamin' the old woman by shovin' my weapon agin' her scalp, I axed her what valubles there was in the house. She was a vixen, you bet, and I was axed I'd have to blow her brains out, but the cold iron and my thinkin' whether to do it or not, which she could see in my face, helped matters, and she at last gave in and showed me where she kept her valubles. It happened that they was all together, so she was 'bleeged to show 'em up all at once.

Well, while we was a-talkin' the gal come upstairs, and though for awhile she couldn't seem to get on to what I was up to, she did at last and give me a look I'll remember to the day I swing. Somehow it made me feel what I was. Nobody ever made me feel that way before.

"Come," she said, "when you've got what you want, I've had what we have in the house set out for you. I'm not accountable for your acts, only my own. You asked for a dinner and I promised to give it to you. I shall keep my promise."

She took me downstairs, and there on the table was such a snack as she could get up in a short time, cold beef and bread and butter, eggs and such like, and I set down and eat hearty, for I was hungry. I felt sort of mean, with the gal waitin' on me as though she was a servant and I a gentleman, specially as I had all the movable property in my pocket. Every time I'd look up there was that innocent face lookin' at me, and when I wanted anything she'd help me to it. So by the time I'd got a good meal into me I was ready to do the most decent thing I ever did in my life.

"You're a nice little gal," I said, "and you've treated me fair. Once I was respectable, and somehow the way you've been actin' toward me and lookin' at me has made me ashamed of myself."

I took out what I'd stuffed in my pockets and put it on the table and got up and walked out of the house and rode away.

Well, that was right enough so far as it went, but it went further. Somehow I couldn't forget the looks of that little gal. It seemed to me that if I could live where I could see her sometimes and have a chance I'd turn decent.

One day when I was near the ranch I rode over there. That was the unluckiest visit of my life. I hadn't more 'a rode in through the open gate before the committee that was a-lookin' for me came round a turn in the road, and there I was caught like a rat in a trap.

The only man on the committee that I knewed me for shore had gone back with a lame horse, so after they'd taken me in on suspicion they called the little gal—for they knowed I'd been there afore—and axed her if I was the man. She looked at me, makin' believe she was puzzled or couldn't remember or somethin', then said:

"No."

I was that surprised you could 'a' blowed me over with a kitchen bel-lows.

"Never seen him before?" axed one of 'em.

"Not this one. The other was a bad fellow. This man, I'm sure, is a good one and wouldn't hurt any one."

That was true so far as I hadn't robbed any one since I seen her.

"All right, stranger," said the leader. "You kin go. I'm sorry to have disturbed you."

I was walkin' forward to the door when I heard a rustlin on the stairs and the old crone come down just in time to meet me face to face. She gave a shriek, yellin' "Take him. He's the man that robbed us."

Well, I seen at once it was all up with me. They took me in and brought me here for trial, and I'm waitin' for the end of it. What gits me is that the only decent thing I ever did was the thing that got me into trouble. If I'd 'a' tuk the valubles and not got soft hearted I'd probably be roamin' on the road now. I tell you, when a man starts out to be bad he don't never want to turn aside to be good. It'll give him away dead shore.

JAQUELINE EASTWOOD.

Why Does It Whiten?

The question as to why all foam is white is not an easy one to understand, but the fact is that foam is always white, whatever may be the color of the beverage itself. The truth produced on a bottle of the blackest ink is white and would be perfectly so were it not tinged to a certain extent by particles of the liquid which the bubbles hold in mechanical suspension. As to the cause of this whiteness, it is sufficient to say that it is due to the large number of reflecting surfaces formed by the foam, for it is these surfaces which, by reflecting the light, produce upon our eyes the impression of white.

If we remember that all bodies owe their colors to the rays of light which they cannot absorb, and all bodies which reflect all the light they receive, without absorbing any, appear perfectly white, we shall be prepared to understand how the multitude of reflecting surfaces formed by the foam, and which do not absorb any light, must necessarily give the froth a white appearance. It is for the same reason that any very fine powder appears white, even the blackest marble, when ground to dust, losing every trace of its original color.

The Doctor Knew Best.

A Pennsylvania farmer named Hans was subject to some kind of fits which rendered him totally unconscious for hours at a time and on several occasions convinced his good wife that she was a widow. It was pretty generally known that she was by no means averse to the widowed state, for she and the doughty Hans did not live in peace and amity.

One day Hans was stricken as usual. The good wife applied the usual remedies, but this time they failed to revive the unconscious man. A doctor was called, and after a thorough examination he shook his head and said solemnly:

"Dot iss zu bed. His iss tod (dead)." The widow pretended to be overcome with grief, and, leaning over the prostrate form of her husband, she wailed:

"Oh, mein Hans iss tot! Mein Hans iss tot!"

But Hans, reviving suddenly, exclaimed:

"Nein, nein! Ich ben nit tot!"

"Hans," said his wife reprovingly, "he still. Der doctor knows best."

Singing Cattle to Sleep.

A curious instance of the power of music comes from the western ranches, where the cowboys have learned that they can sing cattle to sleep. At "bedding time" a rider will ride to the front of a herd, stop it, and then he will ride rapidly around and around it till the cattle are herded close together. He usually sings or whistles while he is doing this, and presently one of the herd lies down, to be followed in quick succession by the others, till in ten minutes a herd of 500 may be all down. The cowboy now rides slowly around them, stopping occasionally if he desires to, and whistling or singing, as he likes. But should the herd get up or become excited in the night he rides around rapidly and sings until they are quiet.—New York Tribune.

Seeing With One Eye.

A great many, perhaps the majority, of otherwise well informed people believe that they see the same with one eye as with both eyes. That this is not the case one can easily convince himself by the following simple experiment: Cover one of the eyes with a hand or a bandage and let the experimenter attempt to sniff out a candle suddenly placed within a few feet of him. He will almost invariably miss the flame, either overreaching, under-reaching or putting the fingers too far to the right or left of the flame. With both eyes normal and open the accommodation for distance and direction is instantaneous.

Washing a Sweater.

Sometimes a sweater that has been sent out to be laundered will come back distorted in shape. Often it is the sleeves, which will be abbreviated to nothing or stretched to almost twice their natural length. In the latter case, procure some thick boards, just the length that you would have the sleeves. Dip the sleeves into boiling water, push a board into each so as to stretch it transversely, then dry in the hot sun. When dry, dip again in boiling water, this time slightly salted, and dry again in the sun on the boards.

The Skeleton at Large.

"Do you know," she said, "the Browns have a skeleton in the closet?" "Oh, no," he replied carelessly. "But I'm sure of it," she insisted. "And I'm just as sure you're wrong," he returned. "The comments I've heard are enough to prove that that skeleton of theirs isn't in the closet at all; it's wandering all over the neighborhood."—Chicago Post.

The "Grain of Truth."

"Pa, what's a grain of truth?" "It is generally the thing that keeps all the women in the neighborhood saying: 'Well, I declare!' I never would have thought it." "You don't say!" "I never did believe she was as innocent as she tried to make out, and I feel so sorry for her children!"—Chicago Record-Herald.

Just Saved From Starvation.

When in 1891 Miss Balfour was visiting the west of Ireland and studying the condition of the people she asked one of them how they were getting on in a particular village. "Arrah, miss, sure and if it wasn't for the famine we'd be starvin'!"—John Bull.

What You Ought To Know About Ohio Tax Laws

A DISCUSSION BY

LAWYER THORNDIKE AND FARMER PERKINS

NUMBER SIX (To Be Completed in Ten Numbers.)

OHIO'S INIQUITOUS TAX INQUIRITOR LAW.

FARMER PERKINS—I should like to know something of Ohio's tax inquisitor law.

Lawyer Thorndike—When Mr. Alfred Kelley started the state on its wild goose chase after ad valorem taxation in 1846, it took till 1861 for the taxbearers to get on to the weakness of the law. Under the stimulus of the Kelley law, personality on the grand duplicate in Ohio, sprung from \$40,352.496 in that year to \$33,964,430 in the following year. It made increases from that year, yearly, to 1855, when it decreased from the previous year \$14,000,000. In 1856 it decreased \$23,000,000 from the previous year and increased \$23,000,000 in 1857, but did not come back to former figures by \$57,000,000. In 1858 it decreased \$23,000,000 more, but increased \$11,000,000 in 1859, but in 1860 it decreased \$3,000,000 from the former year. The Kelley tonic had lost its effect, and in 1861 something had to be done.

On March 29, 1861, the law, which is the beginning of the tax inquisitor law, was passed. That law simply gave the auditor power to put on the duplicate, omitted personal property, in the year on which he found it was omitted, 58 Vol. O. L., 47. This is now the first part of section 2781 of the Revised Statutes. On May 11, 1878, 75 Vol. O. L., 457, the act was amended to go back four years, beginning in the year in which the investigation was made.

On April 14, 1886, 82 O. L., section 2781, was amended to extend the investigation back six years. This continued the law "H" April 14, 1893, 90 O. L., 223, when the act was amended in the interest of justice.

From 1861 to 1893 the law was read and construed so as to punish an offender thereunder in the inverse proportion to his property properly returned.

Farmers Perkins—That is a singular statement. Can you give an example of how the law would so operate?

Lawyer Thorndike—I will bring forward our quondam friends, John Doe and Richard Roe. John Doe for the nonce shall take the role of the honest man and Richard Roe that of the dishonest man. They shall be each operated on, under section 2781, Revised Statutes of Ohio, in the year 1891, for making false returns for taxation under section 2781, which have been made back to include the year 1886. We will assume that John Doe in the six years did wilfully and intentionally omit \$100,000 of his credits, and that Richard Roe did in the same period omit \$600 of credits, in the same manner, having returned credits to the amount of \$100,000. We will assume that each should have returned \$100,000 of credits and that all their other property, real and personal, was duly returned. We will assume that each resided in the same taxing district and that the rate of taxation in that district during the six years was uniformly 2 per cent.

The auditor has just previously concurred in the appointment of a tax inquisitor in his county, who is to receive 20 per cent of what he finds, or what the auditor finds for him. The auditor has in mind the 4 per centum he is to receive under section 1081, Revised Statutes, and the 5 per cent his friend, the treasurer, is to receive under section 2856, Revised Statutes, and these reflections lead next to his impartial investigation. He is serving the third year of his second term, and has let Mr. Doe escape the previous five years, so he can obtain his 4 per centum for the whole period of six years.

At the end of five years the auditor makes up a tax bill against our friend, John Doe. He finds Doe should have returned \$100,000 each year from 1886 to 1891, both years inclusive, but in fact he only returned \$600 per year for the six years and paid 2 per cent taxes, or \$12 per year, for six years. The auditor adds the 50 per cent for these years and makes the basis of his taxes for each year \$150,000 at 2 per cent. This makes John Doe's tax bill \$18,000, on which he had paid \$72, which must be credited and his net tax bill is \$18,036.

Now we will try Richard Roe. He was honest for \$100,000, but dishonest as to \$600, but his total returns should have been the same as his neighbor's, John Doe, in the same taxing district. The auditor makes up for Richard Roe the same tax bill as against John Doe, who was one hundred times more guilty, and it is \$18,036, but Richard Roe has paid \$2,000 per year for six years on his \$100,000 credits, and must have credited for what he has paid. This sum, \$12,000, reduces his tax bill to \$6,036, or about 33 per cent of what John Doe has against him, who, instead of being 66 2-3 per cent more guilty is one hundred times more guilty.

John Doe pays his penalty and tax bill, amounting to \$18,036, and Roe his penalty and tax bill, amounting to \$6,036, making a total of \$24,144. Of this \$24,144 the tax inquisitor gets \$4,122, the auditor gets \$968.76 and

the treasurer gets \$1,206.40, a total of \$7,000.16 for collecting \$24,144, which is 29 per cent of the amount collected. Farmer Perkins—is not this a suppositious case?

Lawyer Thorndike—No, it is a real one except as to amounts and rates of taxation. This construction of the law was sought to be enforced in Taylor vs. Munner, 55 O. S., 668, and the foregoing was claimed to be the proper interpretation of the law by one of the most distinguished lawyers of the state, and whose name is a household word.

Farmers Perkins—Suppose Doe should have returned \$100,001 and did return \$100,000. Under the same facts what would be Doe's tax bill, for the omission of one dollar each year for six years?

Lawyer Thorndike—It would be \$6,006, of which the tax inquisitor would get \$1,201.20, the auditor would get \$240.24 and the treasurer would get \$360.36 a total of \$1,741.94 for collecting \$6,006, which is 29 per cent of the amount collected.

Farmers Perkins—is the construction of this law the same in each county of the state?

Lawyer Thorndike—No, I have given you the extreme construction which was contended for in the case referred to in another county the penalty was only placed on the amount of omitted property, which is just in a third county the penalty was only counted on the actual taxes which should have been paid.

The second construction was applied in Hamilton county, and the third in Clermont county.

Farmers Perkins—What was done in amending the law in 1932?

Lawyer Thorndike—It was amended so as to apply the penalty only to the amount omitted each year. The attention of the legislature was called to the awful construction of the law, claimed in the 55 O. S., and at once amended it. The same law, so amended, is now in force.

Farmers Perkins—As I see the case, the \$100,000 Richard Roe had properly returned was used as a basis to punish him for the \$600 omitted. Am I right in this view?

Lawyer Thorndike—You are. Farmer Perkins—I turn to page 584 of the Ohio Statutes, 1902. "Additions to the tax duplicate upon information received from inquisitors." I find the whole amount paid inquisitors was \$202,005.07, or 7 per cent of the taxes collected on their additions. I notice that twenty-four counties made no report of fees paid inquisitors, and ten counties are left out. How do you explain this?

Lawyer Thorndike—That report is valueless except as to the taxes added, which were \$2,701,106.70. The tax inquisitor were entitled to 20 per cent of that, and no doubt got it—\$540,221.34.

The county auditors were entitled to 4 per centum of the taxes collected, \$108,044.28, and no doubt received it. The county treasurers were entitled to 5 per centum of the amount, \$125,053.32, and no doubt received it, or \$773,320.92 for collecting \$2,701,106.70. The total grand duplicate for Ohio for 1902 was \$1,990,885.38. For the collection of this, county auditors and treasurers, the state auditor and state treasurer a office received \$857,996.27, four and three-fifths per cent, while the tax inquisitors and county officers were entitled by law to receive \$773,320.92 for collecting \$2,701,106.70, or 29 per cent. The county auditors and treasurers in the entire state received as compensation the sum of \$817,473.28 in 1902, and the tax inquisitors and their aids \$773,320.92, or only \$44,156.09 less than the county auditors and treasurers. A system which requires the legalized expenditures of \$773,320.90 over and above that of the auditors and treasurers is necessarily rotten and corrupt. It is based on false ideas and theories and merits condemnation. Many persons think the auditors and treasurers ought to collect all the taxes, but beside the \$857,996.27 paid them to collect the taxes in 1902, \$773,320.92 was authorized to be paid and no doubt was paid, to tax inquisitors.

Were the taxation amendment adopted the three-quarters of a million dollars paid tax inquisitors would be saved and go direct to the state or the counties.

Endorsed by the Democratic Party. The Democratic party, assembled in state convention at Columbus, Aug. 26, 1903, endorsed the following proposed constitutional amendments:

1. Taxation—Providing for the classification of subjects for taxation.

2. Double Liability—Abolishing double liability for stockholders in Ohio corporations.

3. Legislative Districts—Providing that every county shall have at least one representative in the General Assembly.

It disapproved the proposed amendments to give the governor the power of veto, and for the classification of cities.

I
Advise
Women Strongly,
to Take Doctor
Pierce's Favorite
Prescription.This advice comes
from a woman who had
suffered all the miseries
women can suffer from
disease, and had been
perfectly and perma-
nently cured by the use
of Dr. Pierce's Favorite
Prescription.This great medicine
for women establishes
regularity, cures weak-
ening drains, heals in-
flammation and ule-
ration and cures female
weakness.Read Mrs. Kempson's
letter and, if you are
sick, follow her advice."Although it has been quite a time since
I wrote you, I am glad to hear from
you. I am still enjoying good health,
thanks to you and your 'Favorite Pre-
scription.' When I think how I was four
years ago, and then see how I am now, I
say, God bless Dr. Pierce's works, and
may he live long to help poor suffering
women. I have never had any return of
my weakness and am well and hearty.
Can do all my own work without any
pain. You saved me from the grave when
all others failed. I advise suffering women
strongly to take Dr. Pierce's Favorite Pre-
scription, as I know it will cure in all
cases, if indeed there is a cure."Dr. Pierce's Pleasant Pellets are
an excellent laxative, suited to the
use of delicate women.

Not This Week.

Communications have been received
from both sides in the "Calico" con-
troversy this week, but owing to a lack
of space neither will be printed this
week. If either side has anything
further, let them send it in time for
next week, as that will be the final ap-
pearance of the controversy in these
columns. Notice is given in advance
so that all parties have an equal
chance at the finish—Magnolia, (O.)

It Saved His Leg.

P. A. Danforth of LaGrange, Ga.,
suffered for six months with a fright-
ful running sore on his leg; but writes
that Bucklen's Arnica Salve wholly
cured it in five days. For Ulcers,
Wounds, Piles, it is the best salve in
the world. Cure guaranteed. Only

Emergency Medicines.

It is a great convenience to have at
hand reliable remedies for use in
cases of accident and for slight in-
juries and ailments. A good liniment
and one that is fast becoming a fa-
vorite if not a household necessity is
Chamberlain's Pain Balm. By apply-
ing it promptly to a cut, bruise or
burn it allays the pain and causes the
injury to heal in about one-third the
time usually required, and as it is an
antiseptic it prevents any danger of
blood poisoning. When Pain Balm is
kept at hand a sprain may be treated
before inflammation sets in, which in-
sures a quick recovery. For sale by
all druggists.

"I suffered one week with bowel
trouble and took all kinds of medicine
without getting any relief. My only
friend, Mr. C. Johnson, a merchant
here, advised me to take this remedy.
After taking one dose I felt greatly
relieved and when I had taken the

HAYDEN IS IDENTIFIED

Not Known Any Doubt as to the Denver Harder and Suicide

Gravely Was Married to a Daughter of Mrs. Sarah Titus But the Woman Who Was Killed Is Supposed to Have Been a Second Wife

Harry M. Hayden, has been identified as the slayer of his wife, Gravelly, who committed suicide in Denver, Colo., after a number of relatives and acquaintances who are deeply grieved, not only on account of his death, but the manner of his taking life.

Harry Hayden, killed Gravelly, had been about thirty years old, and no particulars have reached him. He was first married to the daughter of Mrs. Sarah Titus, an early settler in the country, about five years ago, but his wife, who was a sister of Edgar Titus, died about one year later.

After the death of his first wife, Hayden is supposed to have married Gravelly, who committed suicide in Denver, Colo., after a number of relatives and acquaintances who are deeply grieved, not only on account of his death, but the manner of his taking life.

Gravelly was married to a daughter of Mrs. Sarah Titus, an early settler in the country, about five years ago, but his wife, who was a sister of Edgar Titus, died about one year later.
